

## INDICE

---

|   |        |
|---|--------|
| L. AMBROSTO - New lower semicontinuity results for integral functionals . . . . .   | pag. 1 |
| L. AMERIO - Sulla connessione tra i fenomeni di rimbalzo elastico e di appoggio per una corda vibrante . . . . .  | » 43   |
| W. ZYGUMUNT - On the Scorza-Dragoni's type property of the real function semicontinuous to the second variable . . . . .  | » 53   |
| G. LUKASZEWCZ - On an inequality associated with stationary flows of viscous, incompressible fluids . . . . .   | » 65   |
| B. RICCIERI - Existence theorems for nonlinear problems . . . . .   | » 77   |
| G. LUKACZEWCZ, BUT AN TON - On a variational problem associated with non-stationary flows of granulated media . . . . .   | » 101  |
| E. MASCOLO - An uniqueness result in the calculus of variations   | » 121  |
| M. TROIISI - Un teorema di regolarizzazione per le soluzioni dei problemi ellittici in aperti non limitati di $R^n$ . . . . .                                     | » 127  |
| G. PROUTE, F. ROLANDI, A. ZARETTI - On a mathematical model describing interaction between two classical gravitational fields                                     | » 139  |
| G. ARRIGHI - Alcune versioni latine indirette degli « Elementi » di Euclide . . . . .   | » 155  |
| A. DI CONCILIO, S. NAIMPALLY - A nearness approach to extension problems . . . . .  | » 161  |
| R. GIULIANO ANTONINI, P. A. ZANZOTTO - A general « geometric » condition for measure derivation . . . . .   | » 173  |
| F. PARODI - Alcuni universi di dispositivi non lineari risolvibili a tempo continuo . . . . .   | » 193  |
| M. GRANDIS - Convergence in homological algebra . . . . .   | » 205  |
| G. BRATTI - Un teorema coomologico sul prolungamento degli integrali di equazioni differenziali ampliato in uno su morfismi di fasci di gruppi abeliani . . . . . | » 237  |
| G. ZAMPieri - Local existence at the boundary of analytic solutions of P.D.E. with analytic coefficients . . . . .  | » 243  |
| G. PROUTE, A. ZARETTI - On the inequalities associated to a model of Graffi for the motion of a mixture of two viscous incompressible fluids . . . . .            | » 253  |
| A. MAUGERT - New classes of variational inequalities and applications to equilibrium problems . . . . .   | » 277  |
| F. FAGNOLA - Une caractérisation de la filtration naturelle d'un processus ponctuel marqué . . . . .  | » 285  |
