

INDICE

S. ZELIK – The attractor for a nonlinear reaction-diffusion system with a supercritical nonlinearity and it's dimension	pag. 1
M. MUSIO – Measuring local sensitivity in Bayesian analysis: a general setting	» 27
M. EL KADIRI – Fonctions finement biharmoniques	» 43
A. CANALE – L. CASO – M. TRANSIRICO – Second order elliptic equations with discontinuous coefficients in irregular domains	» 63
E. VESENTINI – Linear isometries of vector-valued functions	» 81
R. G. ANTONINI – On the Rosenblatt coefficient for normalized sums of real random variables	» 111
S. FRANCAVIGLIA – Tautness of codimension-1 foliations in dimension 3 and transversality with embedded surfaces	» 121
N. PINTACUDA – Liu's Markov chains generalized	» 159
L. AMERIO – La trasformazione di Laplace nello studio dei problemi con memoria	» 169
M. BIROLI – A result in nonlinear subelliptic potential theory	» 185
M. BIROLI – Weak Kato measures and Schrödinger problems for a dirichlet form	» 197
V. CASARINO – Almost automorphic groups and semigroups	» 219
G. MATARAZZO – L. BUONANNO – M. RENNA – Alcune considerazioni sul principio dell'effetto giroscopico. Un'applicazione al caso di due solidi mutuamente vincolati	» 237
M. EL KADIRI – S. HADDAD – Formules de la moyenne pour les fonctions biharmoniques	» 243
I. CRIMALDI – G. LETTA – Sur la tribu boréienne de l'espace de Skorohod	» 255
