

## INDICE

---

D. KUMAR – Generalized growth and polynomial approximation of generalized biaxisymmetric potentials .....	pag. 1
R. GARATTINI – Green's functions and energy decay on homogeneous spaces .....	» 17
A. BENABDALLAH – M. A. HAMMAMI – Global stability of cascade uncertain dynamical systems .....	» 41
H. COMMAN – Capacités sur les ensembles partiellement ordonnés .....	» 49
S. MATALONI – Quasi-linear relaxed Dirichlet problems involving a Dirichlet form .....	» 67
F. ANTOCI – An application of scattering theory to the spectrum of the Laplace-Beltrami operator .....	» 97
M. BAHAJ – O. SIDKI – On the existence of solutions of nonautonomous neutral functional differential equations .....	» 111
S. OGAWA – On the Brownian particle equations and the noncausal stochastic calculus .....	» 125
P. CAVALIERE – P. DI GIRONIMO – M. TRANSIRICO – Embedding and compactness theorems for irregular domains .....	» 141
R. MOLLE – D. PASSASEO – Multiplicity of solutions for variational inequalities involving pointwise constraints on the derivatives .....	» 161
L. AMERIO – Molteplicità di nuclei risolventi e di soluzioni nell'equazione singolare di Volterra – tipo convoluzione – relativa a problemi con memoria .....	» 195
<i>Erratum:</i> M. EL KADIRI – S. HADDAD – Formules de la moyenne pour les fonctions biharmoniques .....	» 215
