

INDICE

S. MARCHI – L^p regularity of the derivative in the second commutator direction for nonlinear elliptic equations on the Heisenberg group	pag. 1
B. AQZZOUZ – M. EL KADIRI – Quelques remarques sur les formes biquadratiques semi-définies positives	» 17
B. MAUREY – J.-P. TACCHI – Qui a inventé la fonction singulière de Cantor?	» 29
M. EL KADIRI – Morphismes finement biharmoniques	» 35
M. BIROLI – C. PICARD – N. TCHOU – Asymptotic behavior of some nonlinear subelliptic relaxed Dirichlet problems	» 55
F. ANTOCI – On the spectrum of the Laplace-Beltrami operator for p -forms on asymptotically hyperbolic manifolds	» 115
G. BELLETTINI – G. F. GRONCHI – Barriers for systems of ordinary differential equations: an application to the two-body problem	» 145
G. BELLETTINI – M. PAOLINI – Errata corrigé to the paper: some results on minimal barriers in the sense of De Giorgi applied to driven motion by mean curvature	» 161
E. VESENTINI – Fixed points and periodic points of semiflows of holomorphic maps of the unit ball of a Hilbert space	» 167
