

INDICE

M. BIROLI – Wiener estimates at boundary points for parabolic degenerate equations	pag. 1
D. PASSASEO – Molteplicità di soluzioni per disequazioni variazionali non lineari di tipo ellittico	» 19
D. PALLARA – On the lower semicontinuity of certain integral functionals	» 57
A. IANNELLI – Bounded and almost-periodic solutions of a Navier-Stokes type equation	» 71
M. LANZA DE CRISTOFORIS – Properties and pathologies of the composition and inversion operators in Schauder spaces	» 93
E. VESENTINI – Small eigenvalues of the Laplace-Beltrami operator	» 111
L. DE MICHELE, M. DI NATALE, D. ROUX – Inversion methods for Fourier transform	» 125
P. DI GIRONIMO, M. TRANSIRICO – Existence and uniqueness results for the Dirichlet problem in unbounded domains	» 137
F. BOTTACIN – Varietà Jacobiane di curve spettrali e funzioni theta	» 151
P. DI GIRONIMO, M. TRANSIRICO – Second order elliptic equations in weighted Sobolev spaces on unbounded domains	» 163
M. L. RICCI – On the motion of a fluid in a basin with slipping conditions on the side	» 177
M. FRANCIOSI – Weak weighted reverse integral inequalities	» 203
P. M. GANDINI, A. ZUCCO – A nowhere dense but not porous set in the space of convex bodies	» 213
G. LETTA, L. PRATELLI – Sur une forme faible d'échangeabilité	» 219
