

INDICE

A. SHIRIKYAN – Asymptotic behaviour of solutions to second-order hyperbolic equations with non-linear damping term	pag.	1
M. BIROLI – C. PICARD – N. A. TCHOU – Homogenization of the p -Laplacian associated with the Heisenberg group	»	23
R. D. MABRY – Some remark concerning the uniformly gray sets of G. Jacopini	»	43
E. VESENTINI – On the Banach-Stone theorem, II	»	51
G. LETTA – L. PRATELLI – Démonstration simplifiée d'un résultat de K. L. Chung	»	71
I. CRIMALDI – L. PRATELLI – Paul Lévy type inequalities for symmetric random variables	»	77
N. DINCULEANU – Stochastic integral of process measures in Banach spaces I. Process measures with integrable variation	»	85
N. DINCULEANU – Stochastic integral of process measures in Banach spaces II. Process measures with integrable semivariation	»	129
A. A. ILYIN – Global averaging of dissipative dynamical systems	»	165
